

Supporting Paperwork for Brede Parish Council meeting 31st May 2022

Item 12

Black Cat Recording Devices. Costs to undertake one speed survey is £422+VAT. There is a discount if more speed surveys are needed. Four speeds surveys would cost £1388+VAT. There was availability in June when I first enquired

Item 14

Cllr Fotheringham suggests there should be improved highways signage around the Parish, particularly on the crossroads. To assist with the case for improvement, he is suggesting a look at what other villages have done, what signage they have used, and its effectiveness. Cllr Fotheringham would lead on this project and I would recommend it becomes a working group, so it reports back to Council each month.

Item 15

First draft of the newsletter will be circulated by Friday 27th May. There will be blank pages in the centre for pictures and reports from the Jubilee weekend of celebrations

Item 16

.gov.uk email. Further information from Tony Polain from Uniserve has confirmed that it is only necessary to log in from a separate browser (such as firefox or edge) to avoid any crossover of information. Individual support can be offered to set this up if required at a small cost. Other providers would cost about the same as Uniserve are offering.

Item 17

Council agreed to TMPI ding the Annual Inspection. Quote has been received for £215 this year.

Item 18

Still no quote received from Wildernest, despite further email requesting it. To consider now getting the chosen architect to design the alternative pavilion.
