

Supporting Paperwork for Brede Parish Council meeting 27th February 2024

Item 12 Recreation Ground Committee recommendations

The Recreation Ground Committee meet on 26th February. The minutes will be circulated directly after that meeting, with recommendations for Council to consider.

Item 13 Feasibility Study report

The feasibility study will be circulated separately, Council need to consider the suggestions contained within.

Item 14 Terms of Reference for Climate and Ecology Working Group

The suggested terms of reference have been circulated.

Item 15 Terms of Reference for Personnel Committee

The suggested terms of reference have been circulated.

Item 16 Bus Stop redecoration

Two quotes are due by the weekend and will be circulated as soon as received. The following has been advised from one of the builders that has quoted:

The Bus stop already has already been coated in anti graffiti paint, which is why the previous decoration has flaked and failed. The current graffiti and most recent paint layer can be removed with a good power wash, but the anti graffiti paint can only be removed with a very strong paint remover, which would require exclusion of the area to the public for a period of time for health and safety purposes. Alternative suggestion, to power wash and remove paint layers back to anti graffiti paint layer and reassess. Repaint with anti graffiti paint if required, and repaint top wooden areas if needed.

A quote for the power washing is being supplied, (if water can be accessed), along with the costs of another layer of anti graffiti paint if required.
