

Winchelsea Beach

October 2022

Dear Winchelsea Beach Residents,

We sincerely apologize for any inconvenience and upset that was caused with tankers over the weekend of 1st and 2nd October 2022. Unfortunately, we were not been able to go through the new Operational Contingency Plan for wet weather plan with MTS at that time. We ordered the tankers due to the wet weather for the weekend and the previous instructions would have been the same so that was why the tankering plan was followed with traffic management.

We met with MTS and the local council on Thursday 6th October 2022 to discuss the new tankering plan. We can confirm going forward the new tankering plan that has previously been agreed outside the caravan park will be going forward with immediate effect and there will be no need for traffic management.

Kind Regards

Southern Water
