

Village Traffic and Roads Report

Vehicle Activated Sign (VAS) Report

Due to low battery power VAS recordings were lost between 00:00 on the 1st until 12:56 on the 2nd, between 23:37 on the 4th until 12:59 on the 8th, 16:20 on the 12th until 12:44 on the 13th and finally between 07:56 and 12:46 on the 11th. This represents a loss of approximately 5.8 days of recording or 19%.

Black Cat Traffic Monitoring Device

There were no Black Cat monitoring sessions carried out this month. The VAS calibration data for January was determined this time last year.

Speed Watch

There were no speed watch sessions carried out in the period but sessions are planned for February.
