

Village Traffic and Roads Report

Vehicle Activated Sign (VAS) Report

The VAS calibration data for June was determined by a Black Cat session this time last year.

The calibration value for speeders at 36mph and above is 4.94 and for excessive speeders 45mph and above is 7.13.

The number of speeding vehicles recorded this month is the highest since the start of this type of recording. The number of excessive speeding vehicles is average since the start of this type of recording.

Black Cat Traffic Monitoring Device

There were no Black Cat recording sessions conducted this month.

Speed Watch

There were five speed watch sessions planned for June and are summarised below.

Date	Time	Recordings	Excessive speed	Letters sent	Remarks
05/06/23	10:00-11:00	19	0	17	
07/06/23	06:00-07:00				Cancelled (sickness)
09/06/23	06:00-07:00	23	3	20	
20/06/23	08:30-09:30				Cancelled (weather)
26/06/23	15:30-16:30	10	0	9*	Two PCSOs present
Totals	3 hours	52	3	46*	

*Anticipated number of letters

There were two PCSOs present on our session 26/06/23, they took the opportunity to patrol the length of Main Street starting at the Old Post Office. Upon their return they were confronted by a resident from the Maltings to complain about the fact that drug dealing is taking place outside his house and that he has young children.

He was able to give details of the car and its registration number; these details were recorded by the PCSO.

Attended a Safer Roads Through Citizen Partnership conference in Guildford, reported on elsewhere.

There is currently one session planned for July.
