

Village Traffic and Roads Report

Vehicle Activated Sign (VAS) Report

The calibration for 36mph and above was 5.67 and for 45mph and above 6.26 compared with 4.3 and 5.55 respectively. The calibrated number of vehicles travelling at 36mph and above was 5171 and the excessive speeders (45mph and above) was 164.

Black Cat Traffic Monitoring Device

There were two Black Cat monitoring sessions carried out this month, the first was carried out at Two Hoots to get updated values for traffic in the winter months. To provide calibration data for this month's recordings.

The second, at Brickfields over the Easter period to determine the traffic flow over the holiday period. This monitoring was still on going at the time this report was written.

Speed Watch

There were no speed watch sessions carried out in the period due to lack of operator availability. Sessions are being planned in April.
