

RALC Report September 2020

Potholes :

We have completed 889 Carriageway Pothole Repairs between 01 July and 30 September in Rother, Bexhill, St Leonards and Hastings.

The Stewards and maintenance teams continue to be out on the Network completing inspections and repairs. Site visits are being carried out with individuals ensuring social distancing is in place and the team are attending SLR meetings remotely.

The spray patcher is also completing work on the Network carrying out individual pothole repairs as well as attending to areas where the condition has been identified as poor by our asset management team details of these sites can be found at <https://www.eastsussexhighways.com/highway-schemes/spray-patching>

Upcoming Works:

You can find details of all the planned upcoming works on the East Sussex Highways website, this details the type of work being carried out and estimated delivery time . **Please note – The sites listed on the website have been identified through our asset Management Approach for maintenance for the year 2020/21 Highways Capital Works Budget. This list has been compiled from condition data and surveys and are based on the available budget for 2020/21 using estimated costs. As each site is investigated and priced more accurately this may lead to changes in cost, priority and viability. Sites listed which are not completed in 2020/21 due to budget constraints following investigation and costing will automatically be included as a priority for 2021/22.**
